

ZSK Stickmaschinen GmbH presents

# New Power Module for MSCI Control Unit

## A wise investment into the future

The new power module replaces the old power module 396.041.004 from the MSCI control.

With this new power module it is possible to change a single circuit board. In case of a damage it is not longer necessary to change the whole unit.

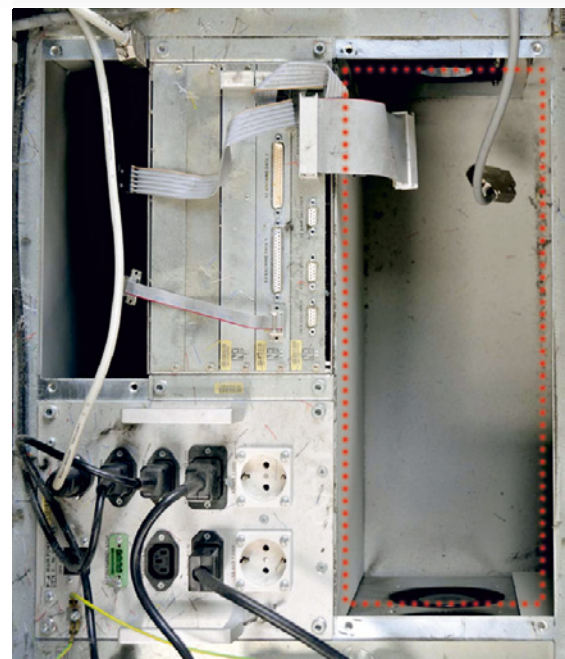

By retrofitting your ZSK embroidery machine with the new power module you keep your machine technically up to date. With this modification the longevity and capability of your ZSK embroidery machine will be guaranteed.

### Parts

Item number: 396.041.015  
Title: Power Module

### Please note:

Working on electric equipment is restricted to qualified electrician in accordance with the national regulations and safety instructions of the country in question. If there are any questions please do not hesitate to contact us.
