

CAP EMBROIDERY

Enhance your cap embroidery by upgrading the **Premium Cap Drive** for **smoother** and more **refined stitching performance**. Ideal to create impressive **3D puff embroidery**.

ZSK tubular machines enable stunning 3D puff embroidery. For greater puffy heights, we recommend specific upgrades.

Embroidery Solutions
Made in Germany

Upgrade Premium Cap Drive

Upgrade Premium Cap Drive

Extra strong connection of the cap drive to the machine, minimal play for exceptionally precise embroidery results!

Cap Frame + Upgrade Clamping Ring

Upgrade Clamping Ring

Waste due to caps being clamped too tight or too loose? Constantly adjusting clamping force for each model? Not with the new clamping ring with spring tension element – perfect tension every time, ideal for beginners!
