

ZSK STICKMASCHINEN

HoopStation

The virtual hooping revolution
for your HoopMaster™

In large parts of the embroidery industry, HoopMaster™ is synonymous with simple, fast and precise hooping of textiles for industrial embroidery projects.

The HoopStation further increases the speed and precision of positioning designs. Especially with lucrative bulk orders, the higher accuracy and time savings of the HoopStation are clearly evident!

HoopMaster™ is not part of the offer!

The embroidery design and other tools such as grids and auxiliary lines are projected onto the textile.

The HoopStation will increase accuracy and speed up to 40% while hooping!
Earn more money through more accuracy and speed!

ZSK STICKMASCHINEN

Advantages of the HoopStation

- Visualize your embroidery programs directly on the fabric (.DST .Z00)
- Move embroidery files within the hoop and transfer them to the embroidery machine (only ZSK embroidery machines)
- Draw virtual guide lines and save them
- Use a lot of tools such as grids, rulers and more
- With the help of the production wizard print barcodes and scan them directly at the machine

SELECT HOOP SIZE

HoopStation comes with an integrated selection of virtual MightyHoops. These hoops are projected onto the HoopMaster allowing you to easily select the correct MightyHoop for your job. HoopStation also allows you to create your own virtual hoops.

LOADING STITCH FILES

Loading an embroidery file from a USB or network is easy and provides a live preview.

The HoopStation improve accuracy and consistency in hooping. By selecting the color of files, visualization is enhanced.

KEEP DISTANCE!

When it is necessary to position a logo an exact distance from a pocket or other marker, simply create a border around the logo with a specified distance to be displayed.

The HoopStation Components

HoopStation Control System

HoopStation LED Projector

HoopStation Table Mount
